

Table of Contents

ADACH S. BADEŁEK J.	Quantitative and qualitative analysis of waste and potential hazards posed by waste in the Tatra National Park	11
ANDREJCIK J. ALMAŠIM. ZELEŇAK V.	Control of interpenetration in the compound $[Zn_2(CYC)_2(MTB)]$ by derivatives of cyclam with pendant arms	17
BABULA M. PIETRUSZCZAK D.	Selected aspects of ecological vehicles	21
BACEVICIUTÈ E.	INTRO - SPECTUS. Sensual installation for one person	25
BAKUN M. ZAKHARKIVI. ZUI M.	Gas chromatographic determination of formaldehyde and acetaldehyde in non-alcoholic beverages using derivatization with analog of PFBHA and headspace solid phase microextraction	27
CHEREPII M. OTSALIUK O. IUKHYMENKO N. KOLENDO A.	Synthesis of new methacrylic monomers based on phenyltriazoles for thermal stabilization of polystyrene	31
GISKA J.	The influence of composting process on the selected features of biodegradable polymer films	35
GOLEC P.	Application of the Internet and Information Technologies to the Development of Distance Learning Methods	39
GOLUBENKOVA S.	Problems of formation of motivation system in the railway transport	45
GRISHINA N.	Formation of personnel certification system in railway transport	49
KAPUSTA J. WLAZŁO P. BADEŁEK J. RÓG E. CZERWIŃSKI R.	Physico-chemical characteristics of water in the Domaniów reservoir	55
KIRALY N. ALMAŠI M. ZELEŇAK V.	Crystal engineering of MOFs using extended tetrahedral linkers	59
KOLIADA D. SITAR V.	Development of the thermostable constructional styrofoam based on aromatic polyamide	63

KORZHOVA D.V.
BULAVKO G.V.
GRABCHUK G.P.
ISHCHENKO A.A.

Photovoltaic properties of polymer composites containing different types of polymethine dyes

KOTOK V.
KOVALENKO V.
SOLOVOV V.
ZIMA O.
NIKOLENKO M.

Some aspects of the WO₃ films electrodeposition for application in electrochromic devices

KURYLENKO R.
KOLOMIETS I.
SAVENKOV S.
OBBEREMOK Y.

Application of matrix polarimetry methods to Study the polarization properties of the medium

LAKIDON G.

Organization of service at high speed communication stations «Moscow - Kazan»

MADAJ B.
ALMASI M.
ZELENÁK V.
BENOVÁ E.

Controlled release of pemetrexed from surface modified carrier SBA-15

MARGLEWSKA A.

Jewellery and design

MASIEWICZ J.
JASIK A.

Composite materials with interpenetrating polymer networks based on epoxy resin/ natural polymer systems

MNISHCHENKO I.
SAVCHENKO I.
OLKHOVIK L.

A novel Lanthanide(III) P-Diketone polymers for the advanced OLED technologies

ORSÁGOVA
KRALOVÁ Z.
ORINAK A.
ORINAKOVÁ R.
PETRUS O.
RADONAK J.
LAKYOVA L.
JURÁSEKOVÁ Z.

Silver films prepared by pulsed deposition for SERS applications in diagnostics

OVSIIENKO L.

Visual language and visual communication

PETRUS O.
ORINAK A.
ORINAKOVÁ R.
ORSÁGOVA
KRALOVÁ Z.

Ni/Ag nanocavities prepared by colloidal lithography for SERS applications

PLACHTA M.	Informatics as a field of science and crafts growing to the level of art and art increasingly based on the achievements of computer science	113
POPOVA M.	Management of the large-scale transport projects socio-economic effects	119
SAVCHUK M.O. LITSIS O. O. SLIVA T. YU. AMIRKHANOV V.M.	Spectroscopy and structure of coordination compounds with CAPH type ligand diphenyl-N-trichloroacetylamidophosphate	123
SERHIENKO Y.O. SUKHYI K.M.	Increasing the efficiency of adsorption heat energy converters by using new composite sorbents "silica gel - crystalline hydrate"	129
SHARKO A.V.	Design of polar structure in copper oxofluoroniobate and tantalate complexes with pyrazoles	135
SHYLOVA A.O. OVDENKO V.M. VYSHNEVSKIY D.G. KOLENDO A.YU.	Synthesis and spectral properties of new molecules containing azo- and azomethine photochromic groups	139
SUKHYIM.	Production of organo-montmorillonite modified by polyionenes for polymer composites	143
SUKHYI K.M. SHEVCHENKO I.S.	Paints production for screen printing	147
SERYTE L.	Representation of a sculptural object using new media technologies of artistic expression	151
STELMOKIENE R.	The parallel of surrealism in the Doll Space Pygmalion oeuvre	153
TITIMETS M. IUKHYMENKO N. BUDZIŃSKA V.	Influence of layered double hydroxides on the properties of organic-inorganic nanocomposites	159
ULATOWSKI B.	Radio-frequency identification in transportation	163
USHAKOV A.	The problems of cyber security on the Russian railways	169
VASHCHENKO B.V.	One-pot synthesis of methyl 4-amino-2,3,3-trisubstituted-1,1-dioxo-2,3-dihydro-1H-1,2,4-triazole-5-carboxylates	173
WÓJCICKI M.	Stop-motion animation as an interdisciplinary form of art	177
