

CONTENTS

Preface 13

1. Physical education in contemporary civilization 15

Ludmila Miklánková, Erik Sigmund, Karel Frömel

Physical activity of preschool children 17

Marek Popowczak

Influence of mobile activity with the ball on the formation of abilities of empathy with secondary school girls 24

Ryszard Bartoszewicz, Iwona Roszak, Marta Wieczorek

Individualisation of classes and pedagogical effects of physical education lessons 34

Skowronek Tomasz, Iskra Janusz, Paruzel Marzena, Walaszczyk Anna

Ergometric tests at schools: possibilities and limitations 41

Stanisław Szczepański

Effectiveness of methodological competences of physical education students 48

Cezary Kuśnierz

Functional asymmetry and dynamic differentiation of 16-17-year-old teenagers 56

Ryszard Asienkiewicz, Józef Tatarczuk, Artur Wandycz

Body components and morphological features of female students of the Zielonogórski University related to their physical fitness 63

Ludmila Sadownicowa, Bogusław Mękowski

Psychological aspect of healthy lifestyle in the professional activity of humans nowadays 72

Monika Guskowska

Type a behavior pattern among adolescents differing in physical activity level 78

Hans-Volkhart Ulmer

Motor (didactical) experiments carried out by students of physical education in small groups with simple equipment 86

Yincentas Blauzdys, Audronius Vilkas

Influence of knowledge of physical training on the physical fitness of girls and boys of the third class of gymnasium 93

Marek Jagusz, Katarzyna Sojka - Krawiec

The importance of education in health behavior 103

Stanisław Zagórny

Health - not only a medical problem 110

2. New perspectives in teaching and control of motor activity 117

Stanisław Sterkowicz

Testing motor efficiency in karate 119

Dariusz Gierczuk, Jerzy Sadowski, Zbigniew Borysiuk

The influence of coordination training on technical skills and the effectiveness of sports competition in wrestling 128

Janusz Iskra, Anna Walaszczyk

Simple forms of hurdles as a universal motor test in school physical education 136

Rafał Tataruch

Motor skills structure among physical education students with various motor skill levels 143

Mirosław Zalech

The modelling of a teaching programme of technical elements in taekwondo 148
 Beata Makaruk, Hubert Makaruk

Training effectiveness vs tests of motor capabilities in sprinters specializing
 in 100 m run 157
 Hubert Makaruk, Beata Makaruk

An acute influence of various stretching methods on jumping capacities
 of young athletes 163
 Natalia Rzepka, Kajetan Słomka, Tomira Ligocka - Jakubińska, Marek Najder,
 Grzegorz Juras

The influence of chosen motor abilities on the learning process of a new global task 169
 Rafał Tataruch, Jacek Soboń, Ryszard Marcinów

Athletics motor and motion skills in physical education students 177
 Vafeřová, R, Vařeka, I. , Valenta, M. , Přidalová, M. , Burianová, K.

Observation of the dispositional anthropometrical factors in footballers at the age of
 juvenis 184
 Magdalena Tataruch, Anna Lukanova-Jakubowska

Age of sport mastery in marathon races for men and women between 1986 and 2005
 188
 Marta Wieczorek, Ryszard Bartoszewicz

Body lateralization and coordinative abilities in 15 - 16 -year-old boys coming from
 different social backgrounds 195
 Marta Wieczorek, Dariusz Mendryk

Learning a complex motor activity in a selected group of mentally-disabled women 203
 Siarhei Boychenko, Jozef Wojnar, Tatsiana Boychenko

Particularities of the motor learning in middle educational institutions of the militias 210
 Michał Szepelawy, Katarzyna Nawarecka, Józef Wojnar

The level of coordinative motor abilities in the school population of the Racibórz region
 218
 Michaił Shestakov

Simulation modeling of the technique in track&field jumps 227

3. Sport for everybody, the concept of health related fitness 233

Małgorzata Grabara, Janusz Szopa

Hatha-Yoga influence on practitioners health state 235

Bartosz Molik , Andrzej Kosmol, Tadeusz Nowicki

Anaerobic performance of upper limbs as a classification criterion in wheelchair fencing
 242
 Ewa Dybińska

Freight level assessment and efficiency of learning to swim by junior school
 children 249
 Dorota Burzycka - W i l k

Oppurtunities of actively spending leisure time in water, while knowing their actual state
 256
 Wojciech Jan Cynarski, Kazimierz Obodyński

The samurai way - recreation with classical white weapon 263
 Algimantàs Kepezenas, Audronius Vilkas, Manefa Miškinienė

The impact of 13 -14 year girls on the level of their physical development and autonomic control of heart rhythm 269

Jerzy Sadowski, Wiktor Bołoban, Andrzej Mastalerz, Tomasz Niżnikowski

Technology of teaching of sport technique 277

Marianna Barlak, Jakub Nowicki, Urszula Wyganowska

Sport as a Chance for the Social Integration of the Disabled People 285

Bartosz Molik, Agnieszka Dąbrowska, Izabela Rutkowska

The special - technical physical ability of individuals with spinal cord injury participating on different levels of polish wheelchair basketball league 291

Izabela Rutkowska, Bartosz Molik

The evaluation of basic anthropometric characteristics and physical fitness in blind persons in the light of concept of health-related fitness 300

Dagmara Borkowska

Differentiation of somatic features and efficiency against selected elements of a healthy lifestyle 308

Marzena Paruzel-Dyja, Janusz Iskra, Tomasz Skowronek, Anna Walaszczyk

Stride length and frequency and the velocity of a sprint race in groups of various age and sport level 313

Anna Kuk

Quality of life and the sense of coherence, the sense of life of disabled women 321

Waleryj Kostyuchenko, Dariusz Nawarecki

Physical culture - for somatic and mental wellbeing 328

Michał Bajdziński, Marek Rokita, Aleksander Stula

Relationships between selected coordination skills versus oriented skills and sports performance in 14 and 15 year old dancers 335

Józef Wojnar, Siarhei Boichanka, Pavel Ciężczyk

Sport psychology - stressful situations in women's volleyball 344

4. Biological aspects of sport, physiological diagnostics 353

Siarhei Boychenko, Józef Wojnar, Tatsiana Boychenko

Sociological analysis of special training of female fencers in phases of the menstrual cycle 355

Leszek Wróbel, Zbigniew Jethon, Andrzej Samołyk

Prevalence of faulty posture among 8- and 9-year-old children in the town of Racibórz 360

Mateusz Mika, Anna Dańkowska

Evaluation of anaerobic endurance of footballers 366

Mateusz Mika, Anna Dańkowska

Evaluation of psychomotor predispositions 373

Hrvoje Sertić, Ivan Segedi and Mladen Budinćak

Differences in anthropological characteristics between wrestlers and judokas 13 years of age 379

Michał Morys, Teresa Socha, Zbigniew Borysiuk

Analysis of the age of the world elite women fencers 388

Artur Kruszewski, Sebastian Branka

Analysis of the structure of a wrestling bout at The Junior European Championships, Wrocław 2005 394

Bogdan Polanowski, Artur Kruszewski, Zbigniew Borysiuk
 Preparation of co-ordination of female sabre fencers 400
 Natalia Lubina-Dąbrowska, Krzysztof Gilewski
 Psychological and social benefits of amateur and competitive participation in martial arts 405
 Bogusława Graczykowska, Renata Szyguła
 Development of movement awareness exemplified by changes noted in the fitness centre Dynamika 410
 Małgorzata Grabara, Ewa Juszczak, Janusz Szopa
 Hatha Yoga exercises in prevention and correction of body posture defects at children in school age 418
 Siarhei Boichanka, Małgorzata Żuchowska, Jolanta Grażyna Zuzda
 Aiming and accuracy of the shooting in archery 428
 Zbigniew Borysiuk, Jerzy Sadowski, Bogdan Polanowski
 Time structure of different reaction types and sEMG signal in advanced fencers 436
 5. Biomechanics and Physiotherapy - New Trends 443
 Dawid Bączkiewicz, Barbara Sterniuk
 The influence of breathlessness on the process of steering the balance of people suffering from chronic obstructive pulmonary disease 445
 Ctirad Tomis, Josef Urban, Jaroslav Opavsky, Milan Elfmark
 Assessment of the Trendelenburg test with DTP-2 diagnostic system 451
 Rafał Szafraniec, Andrzej Czamara, Zbigniew Jethon, Sławomir Winiarski, Andrzej Bugajski, Andrzej Zaleski
 Changes of exercise efficiency in physiotherapy after reconstruction of anterior cruciate ligament 457
 Dagmar Bezdekova, Petr Hluštík, Jaroslav Opavsky
 Evaluation of the effects of physiotherapy in stroke patients with upper limb involvement, examined using functional MRI 464
 Klaudia Kukielińska-Krawczyk, Zbigniew Jethon
 Influence of relaxation music on heart rate variability 472
 Jakub Krejčí, Jiří Salinger, Petr Kolisko, Petr Štěpaník
 Features of chosen fixation positions for the posture diagnostics by means of the system DTP-2 479
 Jiří Salinger, Petr Štěpaník, Jakub Krejčí, Pavel Stejskal
 Non-invasive investigation of the function of the autonomic nervous system with use of the VarCor PF7 System 486
 Jan Szczepielniak, Katarzyna Bogacz, Jacek Łuniewski
 Physical exercise and selection of workload in patients with Chronic Obstructive Pulmonary Disease (COPD) 494
 Krystyna Antoniak-Lewandowska, Karolina Dubiel
 Comparative analysis of muscle force among synchronised swimmers 501
 Wiesław Kurlej, Katarzyna Łagowska, Agnieszka Szulgan, Marzena Gredes, Bohdan Gworys
 The application of human loss permanent dentition index (TLI) and decay changes index (DEF) to make appraisal of chosen students' dentition 505
 Zbigniew Jethon

Apoptosis as a hazard of intensive physical activity 510
 Józef Opara

New technical developments for supporting poststroke rehabilitation 517
 Janusz Zaryczański, Maria Radziejewska, Andrzej Bunio, Paweł Radziejewski

Interval hypoxic training in juvenile uterine dysfunctional bleedings treatment ... 522
 Hans-Volkhart Ulmer

Movement, health and preventive medicine: Primum nil nocere! 531
 Frantisek Vaverka, Milan Elfmark

The gait analysis based on the measurement of ground reaction forces 535

6. Tourism and recreation in the European Union reality 547
 Tomasz Łączek

Styles of participation in tourism of young people with different attitudes to life 549
 Wiesław Drobek

Possibilities and prospects of development of tourism in agricultural county (on the example of gmina Popielów) 553
 Ivo Jirasek

Experiential education is not only expeditions and games 558
 Andrzej Hadzik

The significance of selected determinants of development of medical tourism in health resorts 563
 Andrzej Romanowski

Formal legal problems of Polish agrotourism 573
 Roman Nowacki

Preferred ways of spending spare time by health resort visitors and their participation in various forms of tourism illustrated by health resort visitors to Polanica Zdrój and Krynica Zdrój 579
 Mariusz Migala

Development of health resorts in Silesia in the 19th century 584
 Franciszek Jonderko, Ph.D.

Endogenous factors of recreation and tourism development in rural areas. Circumstances in the Opole Silesia 589
 Mariusz Migala

Traditions and development of health resorts in Poland 596
 Jan Szczegielniak, Jacek Łuniewski, Katarzyna Bogacz

The use of kinesio taping as an alternative physiotherapeutic treatment for patients after cardio-surgeries and thoraco-surgeries 604
 Radek Hanuś

History of the Lipnice Holiday School 609
 Renata Szygula, Bożena Królikowska

Agritourism as an element of rural tourism development 613
 Renata Szygula

Border crossing points as means of accessibility to tourist areas of the Opole Province 623
